HAYDEN MACHINE NOW PERFECTED

Important Addition Made Recently to the Invention.

TOBACCO PAPERS FORCED OUT

Weed and the Journal Quit the Business Reed and McDonald Go to England Saturday—Other Tobacco Items.

The Hayden cigarette machine, which is manufactured by a company of which Mr. L. L. Strauss, of this city, is the president, has recently been perfected and brought up to a high pitch of excellence. The machine was invented by Mr. Hayden, of this city, and the company has been in existence for several years; but it has only been during the past month or two that the apparatus has been perfected.

In its perfected form the machine makes all sizes of pasted paper cigarettes, with granulated filler, tucking both ends at the same time, which has for so long a time been desired both here and abroad, particularly in Spain. The machine should find use in catarrh cigarettes and similar paper-wrapped smokers. At first it made only unprinted cigarettes, but now it may be either, as the desire may be.

It is a curious and significant fact that two well-known tobacco papers have recently been forced out of existence. The Danville Tobacco Journal has discontinued publication, and the publishers stating in their final issue that the step was taken because of "the extreme unsatisfactory condition now existing in the tobacco world." The Weed, of Louisville, Ky., another popular trade paper, preceded the Journal by a short time.

The coincidence is significant of the now frequent upheavals in the tobacco world. Commenting upon the situation and referring to the two papers, the Winston Tobacco Journal says this week: "They found the business unprofitable, notwithstanding they were issued from the two largest leaf markets in the world and from cities with manufacturing prestige. There have been in years gone by similar failures at minor points in the South. Experience teaches that it takes something more than a leaf market to sustain a tobacco journal—something more than a tobacco interest as well. With the first alone success is a dream of the uninitiated, and with both together, as matters now stand, it is doubtful."

Mr. Wellford C. Reed, one of the representatives here of the Imperial Tobacco Company, and Mr. McDonald, of the same company, will leave Saturday on the Cunard Line steamer for England. When seen yesterday Mr. Reed declined to talk about his trip, more than to say that it would be strictly a business affair. They will be gone for some time.

Whether the visiting directors of the Imperial, Messrs. Gunn, Player and Clarke, will accompany Mr. Reed and McDonald cannot be said. These gentlemen gave up their rooms Sunday at the Jefferson Hotel shortly after the arrival of the O'Brien party and presumably went out of town. It is stated that Mr. A. F. Thomas, who is associated with Mr. Reed in the office of the Imperial, was also out of town and that they were together. Mr. Thomas was expected back yesterday.

Mr. W. Ratcliff Irbry, who has long been in charge of the New Orleans branch of the Imperial Tobacco Company, is about to retire from active management. He will be succeeded by Mr. George A. Watson, of Virginia, a man who is of wide acquaintance in the tobacco business and who has been associated with the Imperial Tobacco Company for a number of years.

The Southern Tobaccoist comes out this week with a lengthy editorial declaring that it does not believe that the Imperial will undertake a large lot in this side for some time, if at all. It is on this side that the rumors concerning the Universal mean anything, they mean simply that the Imperial will use the Universal to make its brands, by which business could begin at once in the established Universal factories.

The poor quality of the tobacco sold on the exchange yesterday held down prices somewhat and made it look for a time as though sun-cured would take a tumble. It appears, however, that the lower figure was due wholly to the indifference to tobacco, and that prices will be up again before or to-morrow. Dickinson & Shelburne sold sixty-three packages yesterday, the highest price being \$34.50. Stone-wall Warehouse, George A. Haynes, proprietor, sold three packages at fair prices.

It is reported that Mr. H. J. Blauvelt, of this city, has been appointed architect for all the buildings to be erected in this country by the Imperial Company. The company has purchased a large lot in Kingston, N. C., and will in a few days begin the erection of a handsome two-story brick tobacco stemmy. The building and fixtures will cost in the neighborhood of \$25,000.

Mr. Clarke, of Wilson, N. C., and Mr. Moorman, of Lynchburg, were visitors in the city yesterday.

LEAD PIPE THIEVES.

Major Howard Says They Are Out of Business—Police News.

"There is a dearth in the lead pipe business," said Major Howard yesterday evening. "Since the conviction of several of the thieves who entered houses and carried off all the lead pipe they could get hold of, and the passage of the law prohibiting junk dealers buying lead pipe, the lead pipe thief has lost his job."

"We used to have several cases a week, but now they are rare."

"Good laws like this, when strictly enforced, always result in the good end desired."

Severe punishment for those who are caught with pistols in their possession, as is being meted out by Justice Crutchfield, will result in good.

NEWS OF FEDERAL BUILDING.

Report of Referee in Bankruptcy Shows Only Three Failures.

The annual report of Mr. Robert H. Talley, referee in bankruptcy, which is now being made up, will show that there have been only three failures in the city. This is considered a remarkable showing for a city of 100,000 population.

There have been, of course, many other petitions filed, but these have been by merchants failing in former years, or by workmen hopelessly in debt.

United States Marshal Harmon Treat received yesterday a group picture of all the marshals in the United States, who are having a picnic at their office.

Deputy Marshal Bland yesterday morning served a subpoena on C. L. Todd, of No. 104 East Cary Street, in the case of the United States vs. R. L. Chapell, to be tried in the United States District Court at Raleigh, N. C.

Hor. R. V. Blair, of Wytheville, was a caller at the custom-house yesterday morning.

Colonel Charles H. Ingram left yesterday for Radford to spend a few days.

Song and Piano Recital.

The students of Mrs. May Talley's school of music will give their first song and piano recital in public at the Y. M. C. A. Hall on Monday night next at 8:30 o'clock. Frank W. Cunningham will sing several of his most popular songs, and they are fully capable of giving one of the most entertaining recitals heard here in some years. Mrs. Talley's ability as a teacher is quite well known.

Paul Christian Better.

Paul Christian, the son of Mr. and Mrs. R. S. Christian, who was injured by a fall from a street car Sunday night, sustained a fracture of the skull, is doing quite well. The child is under the care of Dr. Lewis Boehr.

LACK COW SENSE.

People Get Willful.

A cow or horse or even a dog will refuse to eat or drink what the animal knows to be harmful, but mankind will persist in pouring in coffee, even after having been told by a physician that it is doing him harm. Once in a while they wake up and do the sensible thing.

A lady says: "I will people wait as long as I did when it is so easy to save oneself the suffering caused by coffee drinking."

"I discovered that I was breaking down nervously; I consulted several doctors, but in spite of everything, steadily grew worse."

"One physician advised me to quit coffee and I tried it, but it was a miserable failure."

"My stomach was in dreadful shape and I was unable to sleep at night, nervous prostration set in and I became barely able to drag myself through the day while visiting a minister's wife, a motherly old lady, she proposed to give me a cup of coffee, the kind she had been using three times a day for three years. So she brought out a cup of the most fragrant, delicious beverage. It was coffee and it was not coffee. I tried it and was eager to know how it was made."

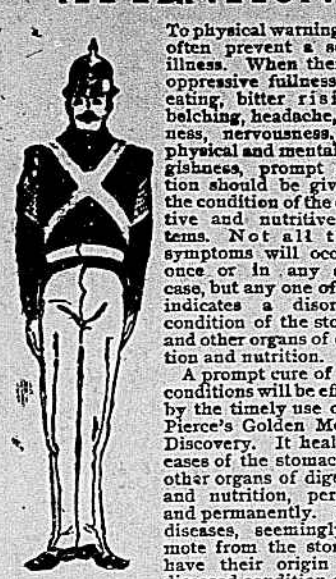

"She said: 'Five years ago I was afflicted much as you are, but I quit drinking coffee and began using Postum Food Coffee, and that produced the result you see and restored me to health.'"

"She said: 'I got a box of Postum and began using it. Such a soothing effect took place upon it began sleeping at night, and I felt better. My awful nervous tension. Gradually and surely I got well and now I feel strong and healthy as a woman should at my age, with all my old-time energy restored.'"

"I earnestly entreat all coffee drinkers to change to Postum. What if the use of suffering day and night because of some paltry coffee when one has but to leave it off and use Postum to be well, and I think anyone will agree with me that health is worth everything else; more so than coffee or tea."

ATTENTION

To physical warnings will often prevent a serious illness. When there are oppressive fullness after meals, belching, bloating, flatulence, nervousness, with physical and mental sluggishness, prompt attention is needed. It is the condition of the digestive and nutritive systems. Not all these symptoms will occur at once or in any single case, but any one of them indicates a disordered condition of the stomach and other organs of digestion and nutrition.

A prompt cure of these conditions will be effected by the timely use of Dr. Pierce's Golden Medical Discovery, which has their origin in a diseased condition of the stomach, and hence diseases of liver, lungs, heart and other organs are cured by use of the "Discovery." It contains no alcohol, neither opium, cocaine, or other narcotic. It is a true temperance medicine.

Accept no substitute for "Golden Medical Discovery." There is nothing else "just good."

"I was a total wreck—could not sleep or eat," writes Mr. J. O. Beers, of Berryman, Crawford Co., Mo. "For two years I tried medicine from doctors but received very little benefit. I had lost all my strength and was unable to do a day's work. I commenced taking Dr. Pierce's Golden Medical Discovery, and when I had taken one bottle I could sleep, and my appetite was wonderfully improved. I have taken five bottles and am still improving."

"Dr. Pierce's Pleasant Pellets cure constipation by curing the cause. They do not beget the pill habit."

Four members of the "Jam-bo-Ree" Company, which begins a two nights' and one matinee engagement at the Bijou to-morrow night, are members of the Benevolent and Protective Order of Elks. In view of this fact many of the Richmond Elks will attend the performances.

In addition to the play itself, which is a roaring farce-comedy, that will probably be put on the road next season by a well-known New York manager, Captain Frank W. Cunningham will sing several of his most popular songs, and Mr. Eugene Clowes will contribute to the musical portion of the production.

Professor Frank Harms, the musical director of "Jam-bo-Ree," will have the entire Bijou orchestra, which means that good music will prevail.

Dr. Levi is an eloquent speaker, and has a national reputation. This is his first visit here, and he will no doubt address large congregations at both services.

MAY BE DROPPED.

Belief That Crawford Case Will Be Settled Out of Court.

Many persons here who have kept up the Crawford case, Rev. C. H. Crawford, superintendent of the Anti-Saloon League, charged with being in contempt of the Amherst County Court, believe that it has gone as far as it ever will, and that the whole matter will in some way be settled before the arrival of the day set for the continuation of the trial. Two or three well known ministers and several other persons expressed this opinion yesterday morning.

Mr. Crawford returned Tuesday from Amherst, but when seen yesterday would not discuss the case.

Constipated Old Age

Isn't it too bad that so many people, when they get old, get cranky and rickety and mean, and don't feel right toward themselves or anybody else; yet it need not be so.

"Cascarets make me feel so light-hearted and lively, that though I have seen three scores and three, a few more across I 'gangway' up." —James S. Miller, of New York.

"For many years I have been troubled with constipation. I used one Mc and two 2c boxes of Cascarets, and they have cured me. I have been a member of the United States Army in 1861. I have never before found such relief from constipation as I have found in Cascarets. I have been using Cascarets for some time for constipation, and their greatest benefit has been to cure me of asthma. I am in my 70th year, and I feel as well as I ever did." —C. C. Redick, Chaco City, Va.

All old people's muscles get weak and flabby, and it's the same with the muscular walls of their intestines as with the muscles of their arms. When the bowels grow weak, the old folks get constipated, bilious, sick, helpless, irritable, and that's the chief cause of their death. Old folks should take Cascarets Candy Cathartic bowel tonic, keep their liver lively, their bowels regular and strong, and live to be a hundred.
